LTB Q-Home-FX True 5.1 2.4GHz Digital Wireless Headphones

Q-Home-FX $269.00

The Q-Home-FX headphones offer True Dolby 5.1 wireless surround sound, not virtual or emulated surround, enabling flat panel TV's to utilize uncompressed True HD digital audio from today's digital broadcast, Cable, Satellite, DVD or Blu-ray media. Hi-def 2.4GHz wireless technology transmits audio through walls, floors and ceiling up to 100' from the transmitter and boasts a wireless 8 channel interference cancelling signal. The lightweight headband is padded and self-adjusting for the ultimate in comfort. The headphone itself provides patented chambered multiple speaker units for front, rear, center and subwoofer channels, digital channel selection on headphones, digital power on/off with indicator and volume up/down control. The transmitter has an integrated headphone stand, 10mW transmitting power, eight selectable RF channels via tactile switch and are capable of transmitting to an unlimited amount of receivers.

Other features include True 6 channel separation with 3 independently chambered neodymium speakers in each ear-cup, patented SafeBass® safe sound pressure Bass technology (*protects listener's ears by converging bass response and restricts the low frequencies from reaching potentially harmful levels*), multiple input sources – analog, fiber optic and SPDIF, 20HZ-30KHz frequency response and an LI-Polymer battery for extended life up to 8 hours. Each system is supplied with power adapter, optical, digital and line-in audio cables.

Additional Receivers for Q-Home-FX

CD/DVD Duplicators

Hamilton Buhl CD/DVD Duplicators are high-performance duplication systems built with ease of use, durability and affordability in mind. These duplicators offer the fastest and most efficient way to make copies of your CDs and DVDs. It only takes 4 minutes to record a full 700MB CDs and about 6.5 minutes for multiple full 4.7GB DVDs. These duplicators also capable of duplicating Dual Layer (DL) DVD discs. With its user-friendly control menu, simple operation, sleek desktop footprint, and professional industrial design, the Hamilton/Buhl Duplicators are perfect for any user requiring easy copying and/or multiple backup copies of data onto DVD or CD media.

Superior technology allows the Hamilton Buhl Duplicators to operate without a hard drive; duplication of DVDs and CDs can be done on the fly. The LCD display provides the user with status of the duplication process and allows access to advanced menu features of the system. Current high speed DVD Recordable technology is supported at 24X, while CD recording is at 48X speed. One year warranty.

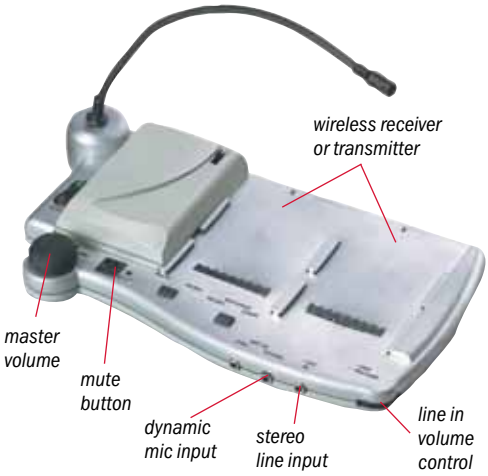
Modular Amplifier with Microphone

Bring Power to your Presentation

Our portable amplifier design takes advantage of ground breaking high-efficiency class "D" type audio amplifier chips. These chips permit a heat sink free and extremely efficient amplifier, that is small enough to fit within the palm of your hand. Coupled with its modular design and accessories like wireless receiver and battery packs, custom configurations for your presentations are endless. The unit was designed with three "bays" that allow accessories to be installed by the user (*as easy as sliding in a cell phone battery*). Unlike conventional portable-audio systems, which require factory installation of wireless receiver modules, the Hamilton Electronics' portable amplifier is modular. An added "user-friendly" feature is that the three accessory bays were designed so that any of the accessories can be installed in any bay. Two battery packs or two wireless receivers (*e.g. one on the "A" channel and the other on the "B" channel*). Other features to aid the presenter during their presentation are the acceptance of an input source from a computer or other stereo audio source as well as wired and wireless microphone inputs.



SL-930 Amplifier Kit w/Flat Panel Speakers

SL-930 $170.00

The SL-930 is fully integrated and so compact, new ways to give a stellar presentation are now available. A previously un-powered lectern can be converted to sound-powered simply by placing the amplifier on the paper rest and attaching our flat panel speaker. (Our flat-panel speaker is 1" thick and handles 30+ watts of continuous power). One year warranty.

SL-935 Amplifier Kit w/Table Top Speakers

SL-935 $170.00

Our SL-935 amplifier can be coupled with our highly efficient mini speakers for the "roadwarrior" type presenter who uses their laptop and an LCD projector. One year warranty.

SL-935ST Amplifier Kit w/Table Top Speakers, Portable Stand & Carry Bag

SL-935-ST $219.00

If you are presenting without a desk or lectern, our SL-935ST with collapsible podium is perfect for you. Our amplifier and mini speakers mount to our podium and set up in minute. Simply put you cannot make a professional presentation without your SoundPoint personal amplifier. One year warranty.

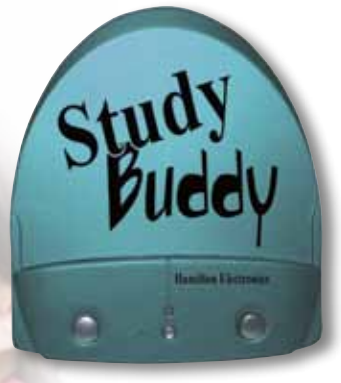
Hamilton Study Buddy Card Reader/Recorder

STBDY-1 $59.00

Students learn better when lessons are repeated. To help facilitate learning, Hamilton Electronics has introduced the Study Buddy, an electronic, interactive and customizable learning system. Study Buddy helps students from Pre-K through high school create their own talking flash cards using visual and auditory cues to reinforce learning.

Study Buddy also allows teachers to create original, customized curriculum materials for their classrooms. Create a lesson or activity in minutes that meets the needs of individuals or small groups of students. Using dry-erase pens, photographs, graphics and/or original artwork that is prepared on reusable electronic cards, teachers can record an accompanying voice instruction that is unique for each card. By combining voice and graphics, student learners can work independently with the card sets on a variety of topics.

Use Study Buddy to create unique lessons, give group instructions and inspire storytelling and writing. Simply slip a photograph or artwork into one of the electronic cards, insert the card into Study Buddy's card reader and record up to 10-seconds of customized audio that can be played back instantly.



Product features

- **Card Reader Kit - Includes 1 card reader & 36 re-usable double sided cards**
- **Audio card reader/recorder**
- **Create your own flash cards custom to your curriculum**
- **Includes 36 double sided re-usable cards**
- **Maximum memory: 72 cards**

Visual Presenters

Buhl Visual Presenter Document Camera with Built-in Mic

VP20M **$599.00**

The VP20M is the perfect choice for teachers and professionals on-the-go. Display 2D and 3D objects on any projector screen, TV or computer monitor so your whole audience can see what you're talking about. The document camera is mounted on a flexible gooseneck mount for maximum versatility. There's also a built-in microphone that, when hooked up to a multi-media projector with speakers, will project enough sound for small groups of people. The Buhl VP20M Visual Presenter is PC compatible only.

Hamilton Buhl

Hamilton Buhl's new Listening Center for iPad, iPhone and iPod is the biggest leap forward in Listening Centers since the CD Player!

Coming in Spring 2012, this fully integrated listening center lets you share the latest Apple devices with groups of up to six students using the built-in stereo headphone jacks or stereo speakers.

- Works with the iPad 2™, iPhone 4s™ and iPod Touch 4g™ as well as all other Apple products with Dock Connector
- 6 Stereo Headphone Jacks
- Integrated Stereo Speakers

Hamilton Buhl Kid's Keyboard and Mouse brings fun and durability to early childhood computer education.

- Kids will love the playful colors and oversize keys of the keyboard and mouse
- Teachers and Parents will love the spillproof design and ruggedized construction
- USB connection is Plug and Play with all PCs and Macs
